

28 September 2022

To whom it may concern,

I have had the pleasure of working with Blake Simpson over the last 2 years, in his role as a Senior Software Developer at Insig Technologies and would recommend him without hesitation.

Blake has always displayed a high degree of passion, integrity and willingness to achieve the project and company objectives that has seen go above and beyond on numerous occasions.

His ability to see the big picture of the product being developed while in parallel delivering on the day-to-day development tasks has made him an asset and natural leader on the project team.

Blake has consistently lived our company values of collaboration, treating others with respect and dignity, integrity and accountability which has made him a key resource in our development team and one who many of our other resources look to for direction in design and implementation of the software products within our portfolio.

Blake will be an asset to any organisation, and I am happy to provide my endorsement of him.

I am happy to be contacted should you have any questions on the above.

Kind Regards,
